Need someone
to talk to?

BEING SAFE

Next week is Anti Bullying week.

As the Designated Safeguarding Lead & Head of Student Support, I will be delivering an assembly covering bullying and all areas of Safeguarding.

Students will be made aware of the forms of abuse which can unfortunately take place. The aim of the assembly is to educate pupils on what is right and what is wrong. In addition to this, most importantly, pupils need to be aware of who they can report this information to keep them safe. Students and parents/carers can access our SOS system 24/7 to report a concern, which is on our main page on the website.

If you have any concerns regarding a child please complete the SOS form, or email

d.menear@ndacademy.co.uk

Alternatively you can ring 999 or for Childrens services 03000 267 979 (Option 1, then 2, followed by option 3)

ONLINE SAFETY TIPS

Cyber bullying is "repeated negative behaviour that is intended to make others feel upset, uncomfortable or unsafe." Cyberbullying is bullying which takes place online. It can involve anything from sending messages to posting offensive comments to uploading and sharing private or embarrassing photos. It is classed as an indirect form of bullying when compared to verbal or physical bullying, given it usually takes place through a digital device. However, for those experiencing bullying behaviour, the consequences can be just as serious and have far reaching effects.

- Ways to tackle this is to are:
- Report the concerns to the website/provider.
- Block the perpetrator.
- Delete the app.
- Report your concern to the police with evidence.

It is also important to remind parents/carers that it is your responsibility to monitor your child's internet use to ensure they are safe, remain safe, be kind and report and concerns to a trusted adult. Please always refer to the age restrictions for games & social media webpages. Ages restrictions are in place for a reason, this is to protect children.

GIRLS GET SET IS BACK!

The GirlsGetSET scheme is aimed at girls and consists of multiple Science, Engineering and Technology-related activities run over an academic year. The focus of this project is to educate and demonstrate to students that careers within these subjects are exciting and challenging, and enable them to be creative and to use their imagination. GirlsGetSET inspire girls to consider the massive opportunities open to them if they consider a career in SET (Science, Engineering and Technology). GirlsGetSet started on Wednesday (8/11/'23) 😊 and this year we have two GGS teams taking part. Two groups from NDA (Year 9 and Year 8 girls) will be working on the topic of crude oil. They will compete with other groups from various schools. They will also be working towards achieving an Industrial Cadets Silver & Bronze Awards. Let's wish them the best in everything they do!

Hands-on real-world STEM challenge

Careers exposure

Mentoring from diverse people in STEM

Learn new life skills during our masterclasses

Industrial Cadets Bronze Award

FRIDAY NIGHT TAKEAWAY
